Learning Module Week 10: Team Building/Community Bonds Potluck or Dinner

Please close this half of the Learning Module by sharing a meal together.

Learning Objectives:

- During the meal, please review key points from the first half of the Learning Module
- Celebrate the group's growth and exciting connections that were made during the past ten weeks
- Discuss ways to develop and maintain social networks outside of the Learning Module

Note: We recommend scheduling a break from class between week 10 and week 11 of the learning module (a couple of weeks should suffice). This gives participants time to brainstorm and draft ideas for their case studies before beginning the second half of the learning module.
